

Path 2: Cyber Security 101 > Module 3: Windows and AD Fundamentals

<https://tryhackme.com/module/windows-and-active-directory-fundamentals>

Windows and AD Fundamentals:

Get hands-on access to Windows and its security controls. These basics will help you in identifying, exploiting and defending Windows.

Keep existing description: Windows is the most popular operating system, used by individuals and corporate environments worldwide. This module will help you become comfortable using essential Windows features (in a safe environment), including user account permissions, resource management and monitoring, registry access, and security controls. It will also introduce you to Active Directory (AD) basics.

Room 1: Windows Fundamentals 1

In part 1 of the Windows Fundamentals module, we'll start our journey learning about the Windows desktop, the NTFS file system, UAC, the Control Panel, and more..

Room 2: Windows Fundamentals 2

In part 2 of the Windows Fundamentals module, discover more about System Configuration, UAC Settings, Resource Monitoring, the Windows Registry and more..

Room 3: Windows Fundamentals 3

In part 3 of the Windows Fundamentals module, learn about the built-in Microsoft tools that help keep the device secure, such as Windows Updates, Windows Security, BitLocker, and more...

Room 4: Active Directory Basics

This room will introduce the basic concepts and functionality provided by Active Directory.
